

Octoberfest tree discovery quiz

Answers:

1. There are 42 tree species in Harrison Park West.
2. I think we are fine for people to give answers, such as apple tree, cherry tree, lime tree, willow, poplar, birch, etc. For completeness, I have listed all tree species in Harrison Park West detected by the app PictureThis on the second page.
3. There are 23 tree species from Scotland and 19 tree species from foreign countries in Harrison Park West.
4. There are 9 fruit tree species in Harrison Park West, among them apple, pear, cherry plum, cherry, mulberry, and peach trees.
5. Harrison Park was established in 1886 and that was when the first trees were planted.
6. The plaques indicate trees which have been planted as a donation as part of the initiative Tree Time. The charity Edinburgh & Lothians Greenspace Trust organises the Tree Time tree donations.
7. The small-leaved lime tree develops round-to-oval smooth fruits with pointed tips.
